PROFILE

Experienced Software Developer adept in bringing forth expertise in design, installation, testing and maintenance of software systems. Proficient in various platforms, languages, and embedded systems.

EMPLOYMENT HISTORY

Software Engineer at Ublik, Quito
June 2022 — January 2023

- Created a Continuous Integration/Continuous Deployment (CI/CD) pipeline that reduced time-to-deployment from 1 day to 1 hour.
- Designed and developed a scalable, high-availability web application that handled 100 concurrent users with minimal downtime named Ultima Milla see link at http://ultimamillafrontend.s3-website-us-east-1.amazonaws.com/
- Led a team of developers to successfully complete a major software project on time and within budget.
- An engineering solution was made for the Official Civil Registry of Ecuador, in which 2 systems were developed. One in charge of citizen requests (client) and the 2nd in charge of process administration (back office).

Software Engineer at Zenith
January 2023 — Present

- Conducted code reviews and mentored junior developers to improve code quality and ensure adherence to best practices
- Implemented automated testing that increased code coverage to 90%, reducing the number of production issues by 95%
- Developed a comprehensive set of engineering best practices to improve overall development efficiency

EDUCATION

Software Engineer, University of Informatics Sciences in Cuba (UCI)
September 2017 — December 2021
